

## Performance

Performance is a term used to describe a category of player that has a degree of natural ability coupled with a strong desire to improve their game. At Lymm LTCC these players are put into small groups which enhances learning & are given the opportunity to have individual lessons at a subsidised rate.

Groups vary in size from three up to eight. In the summer many of the performance players hit with each other & get valuable match practice at the weekly Junior Club Night which starts again in March 2009.

Children are encouraged to enter local Mini Tennis tournaments which gives them great experience at playing matches. The system has so far proved to be very successful. We are currently the best performing Mini Tennis Accredited Centre in the county & have recently won the Cheshire Mini Orange League having come runners up last year.

If you would like your child to be assessed as to their suitability for the programme please contact me through this website & I can arrange a trial.
